DROVE CENTRAL POWER ALLIES  
FORCES BACK ACROSS THE  
TRANSYLVANIA BORDER

## ITALY HAS NEW WARSHIPS

Oil Burning Battleships Have Three  
Times Speed of Ocean  
Liners.

(Associated Press)  
Paris, Oct. 18.—Three German at-  
tacks at Sully-Saillies failed with  
heavy losses for the enemy. Near  
Barry-en-Santerre the Germans gained  
a foothold in the first line French  
trench but were later expelled.

Bucharest, Oct. 18.—In the Pre-  
deal region southwest of Kronstadt  
the Roumanians drove back the Teu-  
tonic forces on the Transylvania side  
of the border. The news from all the  
fronts is reassuring.

Minor Activities.  
Sofia, Oct. 18.—Only minor activi-  
ties on all fronts are reported by the  
war office.

### New Type of Warship.

Rome, Oct. 18.—Italy has completed  
and tried out a new type of war  
ship whose speed is three times that  
of the greatest trans-Atlantic liner.  
Three others are being built. The new  
ships use oil as fuel.

### British Advance.

London, Oct. 18.—Notwithstanding  
the heavy rains the British made progress  
in the Somme sector.

### Aviator Wounded.

Paris, Oct. 18.—It is reported that  
Capt. Boelke, German aviator who up  
to Oct. 8 had brought down 32 enter-  
prise machines, has been wounded by  
French anti-aircraft guns.

### Says Bomb Hit Barracks.

Berlin, Oct. 18.—The Overseas  
agency says: "Eye witnesses to the  
Zeppelin raid in England on Sept. 23  
state that bombs hit Grimsby bar-  
racks, killing more than 400 soldiers,  
and that 60 men were killed when a  
cruiser was hit by a bomb. Regent  
street, London's commercial artery,  
was for the most part left in ruins."

### Denies Report.

New York, Oct. 18.—Edgar Rick-  
ard, an American who arrived here  
today, stated he lived a few blocks  
from Regent street in London until  
Oct. 5 and that "there was no dam-  
age at all in the metropolitan district  
of London except at Brixton."

### Appeal to U. S.

Athens, Oct. 18.—After yesterday's  
demonstration against the entente al-  
lies a delegation of six called on American  
Minister Drovers and pre-  
sented resolutions asking the sym-  
pathy and protection of the United  
States against the enactment of the en-  
tente powers. Drovers promised to  
forward the petition to Washington.

### Doubts on's Death.

Pittsburgh, Pa., Oct. 18.—Benjamin  
Thaw, father of Wm. Thaw, is in-  
clined to doubt the report received  
by a member of the senior class at  
Yale that William, who was a lieuten-  
ant in the French aviation corps,  
had been killed in action.

### London, Oct. 18.—

Rioting in the  
streets of Athens has followed the  
presentation of the latest entente de-  
mands upon Greece by Vice Admiral  
D'Artigue du Fournet, commander of  
the Franco-British fleet. Marines and  
bluejackets, landed from the allied  
warships to patrol Athens and Piraeus,  
were attacked by a mob of infuriated  
Royalists and driven to cover. When  
Admiral du Fournet landed at Piraeus  
and marched through the streets accom-  
panied by his staff, he was hissed and  
boomed by the infuriated populace.

It was the words of King Constantine  
himself, addressed to the sailors  
discharged from the Greek warships  
Kilkis, Lemnos and Averoff, which  
have been seized by the allies, which  
so inflamed the Athens populace as  
to lead to an attack on the French  
marines.

### King Stirrs Royalists to Action.

The King pictured Greece prostrate  
under the heel of stronger powers.  
"This day your lips are moistened  
with a bitter poison," he told his sail-  
ors. "Your souls, looking for a united,  
victorious Greece, see her bleeding  
from fresh wounds."

He concludes with stirring words of  
praise for the loyalty of the navy.  
"My government was compelled to  
give you orders to quit your ships,"  
he cried, "and, faithful to your vow  
of loyalty to your king, you obeyed."  
Greece is believed to be on the  
brink of revolution. With recognition  
extended to the revolutionary govern-

SCENE OF WOMAN'S RE-  
VENGE TODAY.

## HE TESTIFIED AGAINST HER

(Associated Press)  
Chicago, Oct. 18.—In Judge Feell's  
crowded court room today Mrs. Cath-  
erine Marsk, with a babe in her arms,  
fired three shots at Jacob Klaus and  
probably fatally wounded him. Klaus  
had been named by the woman's hus-  
band as co-respondent in his divorce  
suit.

The woman, who is the mother of  
four children, said Klaus, who is a  
witness for her husband, ruined her  
home and then scorned her. Two of  
the shots fired at Klaus, a brother of  
an alderman, took effect, one of them  
in the head.

E. District.

Duquoin, Ill., Oct. 18.—The new  
ecclesiastical year of the Southern Il-  
linois Methodist Episcopal conference  
began here today, following the assign-  
ments at the annual meeting, a large  
number of ministers assumed new  
pastorates.

A remarkable coincidence of the as-  
signments is the fact Rev. W. C.  
Harnes and Rev. C. J. Harnes, twin  
brothers, have been sent to the Car-  
bondale district, the former to Elk-  
ville and the latter to Friendsville. It  
rarely happens brothers are sent into  
the same district.

## PROSECUTOR PLACED ON TRIAL FOR MURDER

SENSATIONAL CRIMINAL HEAR-  
ING BEGUN TODAY IN  
ST. JOSEPH.

### CASE HAS BEEN VERY BAFFLING

Woman Was Beaten To Death in Her  
Bedroom—Her Husband's  
Friend Nemesis.

(Associated Press)

St. Joseph, Mo., Oct. 18.—Oscar Mc-  
Daniel, prosecuting attorney of Bu-  
chanan county, was put on trial to-  
day charged with the murder of his  
wife.

The murder of Mrs. Harriet Mc-  
Daniel, daughter of a family social-  
ly prominent, was one of the most sen-  
sational crimes in many years. Baf-  
fling to the police and detectives and  
fraught with numerous clues (none  
of which pointed strongly to the mur-  
derer) and stirring St. Joseph as it  
seldom has been, the case reached its  
climax when Oscar McDaniel, the wo-  
man's husband, was indicted, charged  
with the killing.

Mrs. McDaniel was attacked and  
beaten as she lay asleep in her home  
the night of July 14. She died soon  
after without regaining consciousness.  
Two of her three children—one five  
and the other eight years old—were  
sleeping in an adjoining room, but  
were undisturbed.

Prosecutor McDaniel said he had  
been called away on a fake telegram,  
purporting to come from a brother in  
an uptown saloon. As he returned he  
was met by one or more of the sup-  
posed murderers and, in the darkness  
outside his home, engaged them in a  
revolver fight.

The deed at once was placed at the  
door of men who had been prosecut-  
ed by McDaniel and who swore ven-  
geance against him in numerous let-  
ters received before the murder. Con-  
cerning one of the letters, he said to  
a friend, a few hours before his wife  
was found beaten and bleeding:

"Ever since I received that letter I  
have carried a revolver and am espe-  
cially careful if I go out at night never  
to be alone and avoid all alleys and  
questionable places. I have even  
thought of a bodyguard, but decided  
it was not necessary."

A coroner's jury was unable to fix  
the blame but on Sept. 24, Bart M.  
Lockwood, special prosecutor, former  
schoolmate of McDaniel and his life-  
long friend, basing his actions upon  
the findings of private detectives,  
swore out a warrant charging first de-  
gree murder against McDaniel. In jail  
McDaniel protested his innocence  
and declared the action was a politi-  
cal "frame up" to injure his cam-  
paign for re-election and that the only  
result would be the blackening of  
his wife's and his own names.

The testimony Lockwood had un-  
covered was presented to a grand  
jury and after two weeks' considera-  
tion an indictment charging murder  
in the first degree was reached. Mc-  
Daniel was released on \$50,000 bail  
and a speedy trial was demanded so  
his name could be cleared before elec-  
tion.

The evidence against McDaniel re-  
sulting in the indictment was briefed  
by Lockwood before the judge who  
admitted the prosecutor to bail, as  
follows:

"Testimony has been given to the  
grand jury that on the night of a  
murder a scream was heard coming  
from the McDaniel home about 10  
at night. That scream was positively  
recognized as being the voice of Mrs.  
McDaniel. And a few minutes later  
McDaniel was seen coming from his  
home and running down the steps of  
his front porch."

## CANDIDATES IN FINE MEETING AT ROCHELLE

REPUBLICAN OFFICE SEEKERS  
SPOKE TO BIG CROWD  
TUESDAY.

## LOWDEN'S THROAT IS HOARSE

Rochelle, Oct. 18.—About 500 peo-  
ple greeted the republican state spe-  
cial here yesterday when it arrived on  
the Burlington at 3:45 p. m., and left  
at 4:15. Mayor W. B. McHenry intro-  
duced the speakers. Col. F. O. Low-  
den was unable to speak, due to his  
strenuous campaign in which he deliv-  
ered 198 speeches in ten days. As the  
train stopped a small balloon with a  
American flag shot into the air.

Wm. E. Mason, candidate for con-  
gressman-at-large recalled his visit to  
Rochelle 20 years ago when stumping  
for the late Wm. McKinley. The  
speaker pleased the crowd with his  
three rules of life: 1, keep your head  
cool; 2, keep your feet warm; 3, vote  
the republican ticket. He said "Dem-  
ocrats are nice people but they don't  
know how to run the government."

The members of the state ticket were  
then introduced in turn. Hon. Len.  
Small congratulated the people on  
turning out so well. Andrew Russell  
invited the people to take a good look  
at him because he wasn't going to  
speak. Louis L. Emmerson believed  
the assembled voters would not only  
vote for Col. Lowden but for the en-  
tire state ticket. Edw. J. Brundage  
called the attention of the people to  
the costly democratic administration  
with its record of spending \$37,000,000  
more than any administration in  
the history of the state, with its 50  
per cent increase in the tax rate. He  
then told of the bungling of the pres-  
ent administration in handling the  
hoof and mouth disease which cost  
livestock dealers of northern Illinois  
\$2,000,000. He said, "We propose to  
give you an old fashioned business  
administration. You have nominated  
a business man for governor." Then  
he reviewed the qualification of each  
member of the ticket. John G. Oak-  
ley took the platform just as the train  
was pulling out.

of it. Mr. Shannahan will be principal  
speaker at a big night meeting in Am-

and not only will all his old neigh-  
bors from May township be on hand,

### Entente Seizes Athens.

London, Oct. 18.—Vice Admiral Fournel, commander of the Anglo-French fleet in the Mediterranean, has handed the Greek government a new note of an extremely grave character, says a dispatch to the Exchange Telegraph company from Athens. Following the presentation of the note King Constantine, it is added, came to the capital in haste from the royal residence at Tatoi.

The railway stations of Athens and Piraeus, the city hall at the capital and the Castalia barracks have been occupied by French and Italian sailors to the number of 1,000, while 150 bluejackets, with two machine guns, have been stationed in the municipal theater, according to a Reuter dispatch from Athens.

An urgent cabinet council has been summoned.

It is officially explained, adds the

dispatch, that the detachments landed will assist the police in stopping demonstrations which threaten trouble.

### Seize Three More Battleships.

The entente allies have taken over the Greek battleships Kilkis (formerly the United States battleship Kilkis), the Lemnos (formerly the Mississippi) and the Averoff, says Reuter's Athens correspondent. Allied crews were put on board the battleships, the correspondent says, and the Greek crews were landed and sent to Athens.

On Oct. 11 the allies took over the entire Greek fleet, except the Kilkis, Lemnos and Averoff. This measure, it was explained unofficially, was intended to insure the safety of the allied fleet, as fears had been aroused of a disturbance at points where the war vessels were anchored.

### Favors Greek Republic.

"What stands in the way of creating a Greek republic?" asks the Daily Mail in an editorial in which it is declared that a Greek republic was favored by General Sarrail, the commander in chief of the allied operations in the Balkans, as well as by ex-Premier Venizelos and other Greek leaders. The Mail continues:

"Rumor says that the obstacle to a republic is not in Greece, but in the courtly minds of statesmen elsewhere, for example, Viscount Grey. But it seems incredible that the theory of divine right should have any considerable supporters in England.

"If the Greeks want a republic, we see no reason why they should not

### PRINCESS THEATRE

The chief offering at the Princess tonight will be a five reel Mutual story entitled "April" in which Miss Helene Rosson is the star. The story is a tense dramatic picturization of the hates and loves of the simple mountain folks, and reminds one greatly of "The Call of the Cumberland." It is a great story.

### OPERA HOUSE

W. H. Quigley, manager of the Gordon Theatre of Kansas City,

sent the following letter to the manager of the Dixon Opera House and to Denman Thompson's Old Homestead which plays here Saturday, matinee and night, October 21st.

The Old Homestead Co., opened a week's engagement here at the Garden Theatre, Sunday, October 8th, to one of the largest audiences we have played to this season, playing to little over 2,400 paid admission Sunday night.

Our business has increased at every performance and on the advance sale, we think the "Old Homestead Co." will break the house record this week.

The production is complete in every detail, and the cast is an exceptionally strong one, the quartette taking nine or ten encores at each

performance.

Anything you can say or do to stimulate business for this company, I am sure that you will have no cause to regret.

Yours truly yours,  
W. H. QUIGLEY,  
Manager.

### Allies Embargo More.

Healo is a most needful toilet article. All men and women of refinement use it. To those living in Dixon it may be purchased at any drug store.

## The Aroma Tells—Your Nose Knows

No doubt you smoke a good tobacco. No doubt you *think* you're smoking the *best* tobacco—the one that just suits your individual taste.

There's a simple way to *find* the best tobacco—your tobacco. Use the tobacco experts' test. Let your *nose* judge. For the flavor of tobacco, the mildness of tobacco, the smoking quality of tobacco, are all proved by the *aroma*.

You'll know this is true after you've made this easy test; rub some TUXEDO briskly between your palms long enough for the friction to bring out the full aroma—then hold it up to your nose. Test the tobacco you're smoking now, and all the other tobaccos you choose, in the same way.

Your nose will tell you that TUXEDO wins—that the others fall far short in that volume and sweetness of fragrance that *prove* delicious flavor and supreme mildness.

Then load up your pipe with TUXEDO and see how your palate confirms what your nose told you. That's the final test that shows *your nose knows*.

## There is a Real Difference

Cream of tartar, derived from grapes, is used in Royal Baking Powder because it is the best and most healthful ingredient known for the purpose.

Phosphate and alum, which are derived from mineral sources, are used in some baking powders, instead of cream of tartar, because they are cheaper.

If you have been induced to use baking powders made from alum or phosphate, use Royal Baking Powder instead. You will be pleased with the results and the difference in the quality of the food.

## COAT OF BOLIVIA CLOTH

One of those ample, warm-looking garments classed as driving coats (which is a fetching name for a utility coat) is pictured above. It is made of more-colored Bolivia cloth and cut in loose, flowing lines. The wide, turned-over collar is described by the manufacturers as a "hood collar," and there seems quite enough of it to convert into a head covering. The coat is long and does not depart from those rules of the season which decree a straight front, clever cut and comfort in all coats of this character.

## TO PUBLISH OLD LUSITANIA NOTE

Washington, Oct. 18.—Mystery surrounding the German note, delivered to the state department, February 6, and providing for a settlement of the Lusitania dispute, may soon be dissipated by the note's publication.

Officials who have seen the document asserted that it is a complete answer to criticisms by Charles E. Hughes. It is understood the note settles all questions relating to the sinking of the Lusitania except the amount of indemnity to be paid.

It is learned the document is about 200 words long and expresses Germany's profound regret that Americans lost their lives when the liner was sunk. It does not disavow the act.

Illegal Blockade Charged. The reason assigned for refusing to make a disavowal was that Germany was acting in retaliation against the illegal blockade proclaimed by Great Britain.

Acceptance of the note by the United States, it was declared, was an admission of Germany's right of retaliation, and Germany admitted that such retaliation must not jeopardize the lives of American citizens in the enjoyment of their rights.

Germany claimed the right to attack the Lusitania. According to its representations, the action of Great Britain, November 19, 1909, declaring the North Sea a war zone, justified the German government in retaliating.

## STRAW VOTES VS. REAL VOTES.

The Chicago Tribune of Oct. 10 contained an editorial concerning the trend of politics which is rather sound logic. The Evening Telegraph is requested by a local republican to reproduce this Tribune article. It follows:

The intelligent human who seeks accurate information about the election probabilities, does not do his thinking on the front steps of a candidate's headquarters nor even during a perusal of a "straw vote," which the hopeful campaign managers have gathered in friendly communities. He moves as far as possible from the blare of the brass band, gathers such facts as are tangible and unmistakable, and draws his conclusions from them.

If facts mean anything they mean a definite tendency in our political current. The facts of the last four years are so significant they cannot be ignored.

The election of 1912 put the democrats in the strongest position they have occupied since the civil war. Not only did the party have the presidency, but it had control of the senate and retained control of the house with a two-thirds majority. It embarked joyously in tariff legislation and before 1913 was gone had put into operation the Underwood tariff.

In 1914 came new elections. The tariff experiment had been going on for a year. Under its low duty provisions imports had climbed steadily and American credit had gone abroad to pay for them. Exports of American goods had fallen off steadily. Railroad earnings and bank clearings crumbled, business failures increased, factories closed, non-employment grew to dangerous proportions.

When the 1914 ballots—not the straw votes—were counted it was discovered that the democratic majority of the house had shrunk from 145 to 119. It was the first warning of public dissatisfaction with tariff tinkering. The democratic control of the senate, where there is naturally a stouter response to public attitude, was increased by five votes. The next spring came the staggering victory of the republican city ticket in Chicago.

The next tangible fact was the Chicago judicial elections of last June, in which the local democrats triumphed. From this the democrats professed to extract great comfort but the republicans found it little except a vigorous protest against the municipal control.

Then came September and the Maine campaign, on which both parties exerted their strongest endeavors, the administration sending three cabinet members out on the stump. The republicans, it was admitted on the eve of election, while fairly confident of the governorship, had scant hope of defeating either Senator Johnson or Representative McGillicuddy. The latter was thought especially strengthened by the "eight hour vote," his district containing a large labor element. The ballots—not the straw votes—were counted. The republican candidate for governor and nearly all of his ticket had won. Johnson was defeated and both United States senatorships were given to republicans. McGillicuddy lost and three other democratic candidates for congress lost.

Then came California primaries. The state had elected a democratic senator in 1914 owing to the split between progressives and republicans. This year Gov. Johnson was nominated for United States senator on the republican ticket, welding together the fragments of the old republican party and assuring a republican victory.

Then followed the New York primary. A progressive vote of 390,000 in 1912 dwindled to a matter of 20,000, the vast bulk of republicans returning to their old allegiance. For the United States senatorship, to succeed a sitting democrat, the republicans nominated a man who had been allied with the progressive wing, further testifying to the old time solidarity on the eastern seaboard. This was done by ballots—not by straw votes.

Then came the New Jersey primaries. Just as New York democrats had nominated for the senatorship a man bitterly opposed to President Wilson, so those of New Jersey renominated the sitting senator in spite of the president's indorsement of his opponent.

The Illinois primaries did not put opportunity for direct indorsement or repudiation of the national administration so clearly before the voters. However, although no estimate has been made of the number of straw votes it is a fact that the real, tangible republican ballots of the state of Illinois were more than half again as numerous at the democratic ballots.

The democracy can gain many progressive votes without doing any one any harm, but does not seem to be doing so. It is well to recall that Mr. Wilson won solely by a republican split, his total vote being only 6,293,000, or 2,450,000 less than the combined vote against him. Despite the oratory of the democracy and the plethora of straw votes, the results in the nation and in nearly every state where there has been a definite test since 1912 have been enormously to the advantage of the republicans. Tangible facts show a trend toward republican principles.

The tendency is not diminishing. The figures show it is gaining.

## DIXON WOMEN ORGANIZE.

The republican women of Dixon are displaying a very gratifying interest in politics this year. The women of Illinois can vote on President, and the women of this locality at least seem to be united on Hughes. They are holding committee meetings, appointing further committees, devising ways and means for enlisting their fellow women voters to the real live issues of the campaign, and planning to get the women to the polls on the day of election. Women of this sort prove their right to have a voice in government.

## GIRLS! HAVE WAVY, THICK, GLOSSY HAIR FREE FROM DANDRUFF

Save your hair! Double its beauty in a few moments—try this!

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots flanch, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

# DEMOCRATIC MASS MEETING

## At Dixon Opera House This Evening at 8 O'clock

The citizens of Dixon spent much time and money in trying to secure the location of a state institution under the last Republican administration but partisan politics weighed heavier with that administration than the natural advantages and beautiful site that Dixon offered for such an institution and Dixon citizens failed in their efforts.

Governor Dunne and a Democratic State Board of Administration recognized Dixon's Superior claims for the location of a state institution and the most modern and up-to-date Epileptic Colony in the world is being rapidly constructed.

Dixon citizens should give Governor Dunne a rousing reception this evening.

### Celebrates Birthday

Sterling Gazette: Mr. and Mrs. Luther Ridge of near Dixon, entertained twenty relatives and friends from the Twin Cities and Milledgeville Sunday at a chicken dinner in honor of the 47th birthday of the former. The day was spent in a social informal way, and the guests on departing for their homes wished Mr. Ridge many happy returns of the day.

The members of the expedition, who are taken from the Queen Esther and Women's Home Missionary societies, will also take more clothes for the children. The cars of Rev. Mr. Lumsden, Mrs. Bunnett, Henry Floto, Miss Ruth Livan, Mrs. L. F. Cooling, William Starks, and L. B. Neighbour, will see service in today's expedition.

### In Alledo

Mrs. Alexander of Bluff Park is visiting her son in Alledo, Ill.

### To Entertain Sister League

The Dixon Parlor Club, O. E. S., are making plans to entertain on Tuesday afternoon, October 31, the members of the Sterling and Rock Falls Parlor clubs, at a Halloween party.

### Phidian Art Club

The Phidian Art Club meeting was held Tuesday afternoon at the home of Mrs. Louise Cumins of N. Dixon. The preliminary business of calling the meeting to order by the president, and the reading of the minutes by the secretary, Mrs. Tribo, were soon disposed of, and as there was no treasurer's report because of the continued illness of Miss Laing, the treasurer, the program of the afternoon was launched, after which the election of delegates to the state federation meeting to be held November 14th in Urbana, was held. Mrs. M. R. Forsyth, the president, and Mrs. F. C. Grant were named as delegates. With Mrs. George B. Shaw and Mrs. E. E. Wingert as the alternates.

Two beautiful vocal numbers by Mrs. Willard Thompson—"By the Sea" (Schubert) and "Lullaby" (Nevin)—opened the program. Mrs. Frank Rosbrook served as accompanist. Mrs. Louise Steel's paper on "Chicago, the City of Contrast," made this wonderful city, which we sometimes belittle because of its nearness, stand silhouetted in all its greatness. Possessed of a population of 2,185,000 of people from nearly every quarter of the globe, it is slight wonder that its government is constantly a problem and that un savory things occur. It is within one-hundred miles of the center of population, is the second banking center in the world, the second manufacturing center in the world—a city alive with energy. Combined with Cook county it elects the majority of members in the House of Congress from Illinois. Chicago's charities are well organized and its settlement work is represented by Hull House, the Chicago Commons, and Lincoln Center. As an educational center Chicago ranks high. 5,000 students alone being enrolled in the University of Chicago.

Aesthetically Chicago finds its center in Art Institute which is the home and circulating medium of many beautiful art collections and its exhibits make it the popular means of education in art. Chicago has much to be thankful for in its beautiful lake front and its remarkable park system adds much to its beauty and to the health and happiness of its people. Chicago's loop is its one mistake which may be amended in time. Architecturally Chicago has many beautiful buildings, and is the native home of the skyscraper.

Chicago was by nature fitted to be a large city, because of its position in relation to the Great Lakes and to the coal, lumber, iron, and other products of the middle west. In 1830 P. W. Peck began the dry goods industry in a very small way, and everyone knows the mammoth proportions which it now has assumed. Marshall Field's store alone employs 7,000 people. If Chicago's future will be anything like its past, its growth will indeed be phenomenal.

At the close of the paper refreshments were served; Mrs. Harry Warner and Mrs. G. B. Shaw assisted the hostess.

### OLD-TIME COLD CURE— DRINK HOT TEA!

Get a small package of Hamburg Bread Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

### RUB RHEUMATISM FROM STIFF, ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia. Limber up! Get a 25 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

General church enjoyed their first social gathering, a housewarming, as it were, in the newly arranged church. The basement was beautifully decorated in autumn leaves, by Mrs. C. E. Hall and her committee. A supper was served, with many choice viands on the menu. At 7 o'clock, the pastor, Rev. John Divan, led in prayer, and the congregation singing of "Blest Be the Tie that Binds," followed. Over one hundred were present and a great deal of credit is due to the committee in charge, composed of Mesdames Divan, Brink, Sindlinger, Hill, and Miller for the delightful social evening.

### Surprise Mr. Curran

Forty relatives and friends gathered at the Daniel Curran home on Peoria Avenue last evening and made Mr. Curran, who was quietly celebrating his birthday, the victim of an agreeable surprise. A very pleasant social evening resulted. Patrick Whalen of Billings, Mont., acting as master of ceremonies. The following program was given:

Vocal Solo—Thomas Tracy.  
Wooden Shoe Dance—Joseph Schuaff.  
Reading—Joseph Allen.

### Luncheon at Country Club

A luncheon was given at the Country Club today in honor of Mrs. A. S. Hyde of Chicago and Mrs. H. E. Finney of San Francisco. Nine ladies composed the party.

### Snowball Bush in Bloom

The peculiar weather conditions of the season have produced an anomaly that is being much noted. A snowball bush in full bloom in the yard of Mrs. Mary Hatch, of 79 Peoria avenue. The bush is very beautiful and, of course, is much more appreciated, though not more beautiful, than in May.

### CARRANZA ORDERS ELECTIONS OCT. 29

Events Expected to Pave His Way to Presidency.

Washington, Oct. 18.—American consuls in Mexico have notified the state department that Carranza has ordered elections for the Mexican congress to be held on the last Sunday in the present month.

The elections are to be held on the basis of the census of 1910 and of the territorial or congressional divisions of 1912.

Some officials intimate that no elections will be possible except in territories which are safe from the legalists and the Villistas and that as a consequence the new congress will be absolutely dominated by Carranza.

These officials expect that when the congress so elected shall meet in December events will shape themselves up rapidly for the election of Carranza as president.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness, disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

DRINK A GLASS  
OF REAL HOT WATER  
BEFORE BREAKFAST.

Says we will both look and feel  
clean, sweet and fresh  
and avoid illness.

The Teutons took Russian trenches on a front of a mile and a half, taking 1,930 prisoners. Ten machine guns were captured. The official report says:

After heavy artillery fire, a vigorous attack was made against the Pustomyty-Bubnow sector. It was three times repeated and each time failed with heavy losses to the attackers.

All infantry assaults were repulsed and the Russians suffered a severe defeat. The Guard Fusiliers pursued the fleeing enemy and took the foremost enemy trenches on a front of two kilometers, bringing in thirty officers and 1,900 men. Ten machine guns were captured.

Teuton Attacks Repulsed. Petrograd, Oct. 18.—Following a bombardment the Austro-German troops southeast of Lemberg have begun a series of counter attacks against the Russian lines, the war office announces. All attacks have been repulsed and 1,187 prisoners taken.

Belligerents Halt Relief for Poland. President Announces Rulers Block Food Shipments.

London Branch, N. J., Oct. 18.—President Wilson announces that his efforts to bring about an agreement among belligerent nations to allow relief supplies to be sent to Poland has failed.

The President gave out a statement saying he had received replies from the rulers of Great Britain, France, Russia, Germany and Austro-Hungary to a letter he sent in July brie to assist in Polish relief work.

The statement follows: "I have now received replies from the King of England, the President of France, the Emperor of Germany and the Emperor of Austria to my letter of July 20, 1916, in which I tendered the offices of this government in negotiations looking to a fresh consideration of the possibility and method of relieving Poland. It appears, I greatly regret to say, that there are still important differences between the allied and central powers as to the terms under which relief supplies may be sent to Poland. I am disappointed that I have not yet been successful in inducing the powers to conclude a definite settlement."

## BRITISH CHARGE U. S. UNNEUTRAL IN RAID

Comment on Presence of Destroyers at U-53 Operations.

London, Oct. 18.—Charges that United States destroyers violated the laws of neutrality when they stood by and watched the U-53 sink British merchantmen were made in the house of lords.

Lord Beresford declared that the appearance of the destroyers on the scene made it appear that they were present in accordance with a previous arrangement. Presumably he referred to a newspaper suggestion that the U-53's commander might have asked United States naval authorities at Newport to send out the destroyers when he paid a call a few hours before the raids.

Viscount Grey declared that the issue raised by the presence of the United States destroyers was a most important one. The government, he said, would withhold representations until it had gathered information regarding the statement that the destroyers facilitated the operations of the U-boat by getting out of the way.

### ALLIES ARE PUSHING AHEAD

Both Paris and London Report Gains in Somme Sector.

London, Oct. 18.—Both British and French armies made progress in their movement to encircle the German base at Bapaume. The French took additional houses in the village of Sully-Sailles, northeast of Comblès. The village is strongly defended, every house being a small fortress, buttressed with machine guns. The British made gains west of Serre, a village seven miles due west of Bapaume.

Berlin, Oct. 18.—The war office announces the repulse of violent Franco-British attacks on the Somme in Monday's fighting, particularly in the region of Guedecourt. The statement adds that the German positions are being terrifically bombarded.

### SIX ARE KILLED IN FIRE

Police Fear Bodies of Others Are in New York Ruins.

New York, Oct. 18.—Fire which started in a laboratory of the Oakes Manufacturing company and swept through the plant with terrific speed, killed nine or more employees of the plant.

After firemen had fought for three hours against chemical fumes, trying to reach the business offices, which were in the center of the building, they brought out six bodies. Police who made a canvass of the situation said they feared five other bodies would be found.

### OHIO DOUBTFUL, HITCHCOCK

Probably Republican: Indiana, the Dakotas, Michigan, California, Oregon and Washington. Doubtful: Ohio, Missouri, Kentucky, Montana, Nevada, Arizona, New Mexico and Colorado."
